

GLOBAL HEALTH

RESOURCE TOOLKIT FOR AMERICAN SPACES

This Resource Toolkit is designed for programming at American Spaces to create a greater awareness of global health-related issues and of U.S. leadership to create a healthier world.

SMITHSONIAN OUTBREAK DIY EXHIBIT AT AMERICAN SPACES

The Smithsonian Museum of Natural History has created a do-it-yourself (DIY) exhibit called Outbreak. It shows how diseases travel and how people around the world track down and respond to outbreaks. This colorful and interactive exhibit can be easily printed anywhere. It contains 16 pre-designed panels with two customizable templates, along with audio and visual content and a resource guide. Here is how to get this exhibit at your American Space.

PROGRAMMING ON GLOBAL HEALTH ISSUES

Global health covers a range of health-related issues, including disease outbreaks, nutrition, and environmental health. With the recent outbreak of COVID-19 (coronavirus), consider conducting health related programming at your Space in coordination with your U.S. Embassy or Consulate. You can also program on specific topics around these dates: <http://bit.ly/CDCHlthDys>.

The United States is a leader in promoting global health, delivering medical assistance and expertise, and conducting research to address health problems. The Centers for Disease Control and Prevention (CDC) website www.cdc.gov is the official online source for credible health information. In a rapidly evolving situation like the Coronavirus outbreak, misinformation and fake news can take hold. Here's a guide on how to increase resiliency to disinformation. - <http://bit.ly/DsifnoTK>

Activities and Lesson Plans

Centers for Disease Control (CDC)

This series of educational STEAM activities are designed to help students learn and practice skills, like disease detectives, that they can also apply to their daily life. <http://bit.ly/CDCSTEAM>

This series of lesson plans covers a variety of topics including infectious diseases, environmental health, chronic diseases, HIV, and more. <http://bit.ly/CDCLsnPln>

National Institutes of Health (NIH)

This site has lesson plans, games, and activities geared for teachers and students. <http://bit.ly/NIHEdAct>

Diplomacy Simulation

The National Museum for American Diplomacy has created a simulation of an HIV/AIDS epidemic in a fictional country. <http://bit.ly/HIVDpSm> - Here's a guide to conduct the 95-minute simulation. <http://bit.ly/DpSmGd>

Discussion Guides

Erin Brockovich*: 2hr 11min – Portrays the true story of Erin Brockovich, a woman who fought a large energy corporation for polluting the town's water supply. Can be used as to discuss pollution, water safety, and disease. <http://bit.ly/MKErnBr>

Philadelphia*: 2hr 5min – When a man with HIV is fired by his law firm because of his condition, he hires a small-time lawyer as the only willing advocate for a wrongful dismissal suit. Can be used as a platform to discuss HIV/AIDS. <http://bit.ly/MKPhildl>

**Post will need to procure these films. They are covered under a license agreement and can be screened at the American Spaces. The Office of American Spaces is not endorsing these movies as they may not be appropriate for all audiences. Staff should screen the films ahead of showing them.*
